

WCAG POUR framework

Perceivable

Information and user interface components must be presented to users in ways they can see or hear.

Operable

User interface components and navigation must be designed so that users can interact with them and they can support assistive technologies such as screen readers.

Understandable

Information and the operation of user interface must communicate clearly and consistently so that the content is readable.

Robust

Content must be written so that it can be interpreted reliably by a wide variety of user agents, including assistive technologies.
